

To whom it may concern

06<sup>th</sup> November, 2015

Dear Sirs,

**Letter of Reference**

We herewith would like to confirm that the company:

ekoTechnologia Sp. z.o.o.  
Szeroka 42/1, 87 Torun  
Poland

has successfully completed the installation of a 30kWp Mini-Grid System at the Royal Kasubi Tombs, Kampala, Uganda. (UN Heritage Site).

The works completed included the design and layout of the overall system, partial supply of electrical components, installation supervision, commissioning and training.

The installation included the following:

- Power and Control Building
- 30 kWp Solar Array and Sub-Structure
- 3 x 8000 VA Hybrid Inverter
- 4 x 80 MPPT Charge Controller
- 48v 3600 AH Battery Bank
- Remote Monitoring System
- Connection to 30 Houses and 40 Park Lights
- Water Pump

All works have been concluded to complete satisfaction of TASS Uganda Ltd. and the Kingdom of Buganda.

Furthermore the before said company has been actively involved in the after sales service through remote monitoring.

Best regards,

**TRANS-AFRICAN SUPPLY SERVICES LTD**

Patience Kemigisha Ssesanga  
**General Manager**
